

Back to School Night

Summer is over and classes are back in session for us! It is always so heartwarming and delightful when our CIDream students are eager to bring their parents and siblings to our office and to show off their tutoring room. Now it time to continue the pathway of excellence and maintaining good grades.

Fiestas Patrias & Fundraising

The CIDream students assisted at the parade with pedestrian safety as the 50 plus floats and cars rolled by. Some also continued in their community service skills through fundraising as well as the organizing i

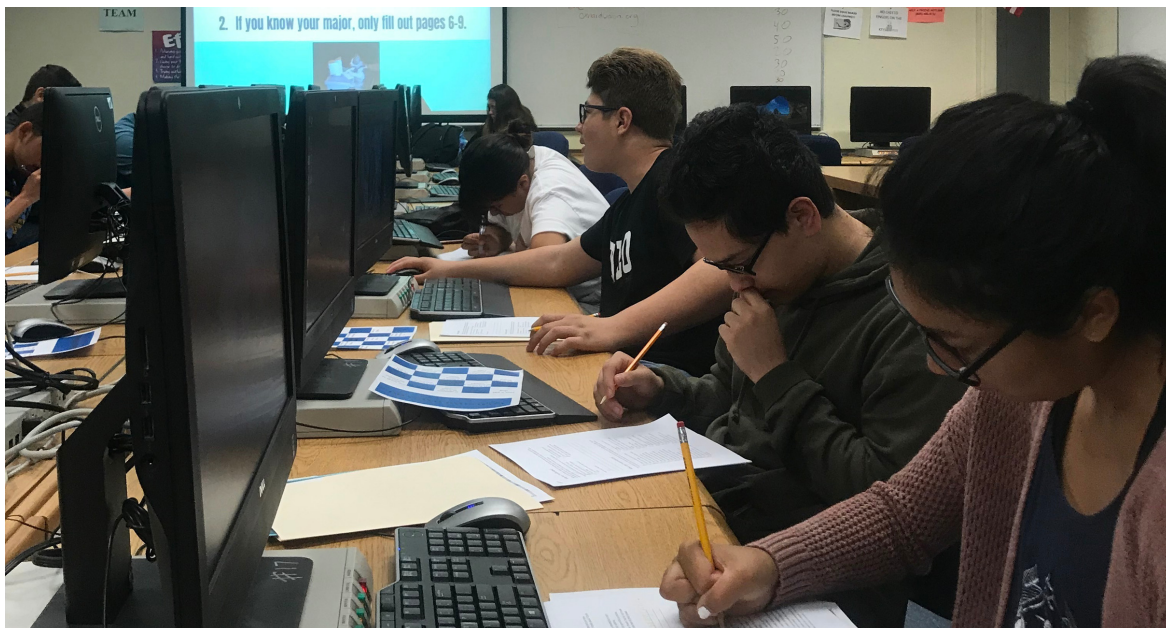

Community Meetings

Busy morning with the CIDream students at the VCLULAC district meeting. The youth are conducting business and preparing for their trip to Disneyland next summer. They are drawing Xmas cards for purchase as one of their fundraisers.

Road to College Series; Part 1

Part 1 of 2 of the series was designated to help the students with college and career research. It is important for 9th-11th grade to start looking into colleges and majors so they know what is required of them before they apply. As for the 12th graders, they had a chance to work on college applications and check-in with staff on where they were at in the college process.

College 101

The month of October was one busy one for our students. it started of with Senior College Night which was a huge success. Glad to see so many parents involved in their child's education by learning more about how they can help their child succeed in higher education. Followed by a college fair for all students to look into state colleges, universities as well as private. The rest of the month went into several days of college application workshops. Finally the month ended with a financial aid night, which was a very busy night filled of questions by parents who had never heard of the fafsa application.
